HOTEL

### Watergate Bay Hotel - Refurbishment

We have recently completed the winter works 2022/23 programme which consisted of a full refurbishment of all on-site living spaces and spa areas. Working closely to the architect & interior design team's ideas, taking full responsibility of the Pricipal Contractor role.

Works on this notifiable project were carried-out around the clock to ensure that we delivered in time for the seasonal reopening of the busy hotel near Newquay in Cornwall.

Watergate Bay is a luxury hotel that is busy throughout the year. Their customers expect the very best, so our building team's attention to detail was mission critical.
