

## ASBESTOS REMOVAL

### Derriford Hospital - Plymouth

Gwella were appointed to undertake the removal and disposal of AIB ceiling tiles, and reinstatement works at Derriford Hospital on behalf of ME Contracting Ltd.

Working from a licensed fixed scaffold, our team were able to carry out the removal safely and on time allowing our reinstatement team to carry out the follow-on works.

The project consisted of high-level removal of AIB ceiling tiles and replacement of new tiles.

Fantastic feedback from the client was well received, and as a business Gwella looks forward to supporting ME Contracting with future projects.

*"From start to finish they offer a very professional and prompt service. I had a site engineer come out in a timely manner to survey the works, their knowledge and experience was extremely reassuring.*

*Following this, an in depth easy to understand quotation was produced at a very competitive rate.*

*Once employed, the communication was excellent and everything happened in line with what was put across in the quotation. The guys that attended site, from the scaffolders to the guys removing the asbestos, were all very courteous and professional and were happy to assist wherever possible.*

*The paperwork for the removal was issued correctly and completed first time around.*

*It was a pleasure to have you working with us and will definitely be using again."*

*Mike – Director MEC*
